SPLENDOR X

This is how confidence feels

SPLENDOR X

The only aesthetic
workstation powered by
BLEND X technology

We don't just build technology, we build confidence.

What we do changes the way people feel about themselves.

We don't just remove unwanted hair, we remove doubts and worries and
the barrier between people and what they can be.

We create, design and manufacture confidence.

This is how **confidence** feels

World first from a world leader

SPLENDOR X, introduced by Lumenis, a global leader in laser and energy-based technologies, lets you customize hair removal and skin treatments across an infinite spectrum of skin tones like never before.

BLEND X

Bilateral laser emission of Nd:YAG (1064nm) and Alexandrite (755nm) wavelengths, synchronized and adjustable proportions

Square shape spot sizes

For uniform skin coverage, eliminating overlap and hotspots.
Up to 27x27mm

Fast treatments

Large spot size and rapid repetition rate

Treatment versatility and skin solutions

Vascular and pigmented lesions, non-ablative skin rejuvenation

Infinite possibilities. Ultimate versatility

SPLENDOR X empowered by BLEND X is a truly unique solid state laser system with unprecedented power, speed and coverage rate

Binary Laser Emission of Nd:YAG and Alexandrite

With BLEND X technology Alexandrite 755nm and Nd:YAG 1064nm wavelengths can be synchronized to be fired independently or simultaneously, with varying proportions to tailor treatment, according to the individual's skin type, hair color and thickness allowing safe and effective treatment.

Powerful, fast and versatile SPLENDOR X treats the widest range. of hair removal procedures and skin conditions such as vascular and pigmented lesions, non-ablative skin rejuvenation and wrinkle reduction.

Extreme power, unprecedented speed

The SPLENDOR X is very powerful, at 260W output power it provides rapid coverage rate combining high fluence, large spot size and high repetition rate.

Fluence: 20 J/cm ²		
Configuration	Square spot size	Repetition rate
Alexandrite & Nd:YAG	20x20mm 24x24mm	3Hz 1Hz

BLEND X technology targets the hair follicle in two depths for greater efficacy

Revolutionary square spot size

The revolutionary square shape laser spot provides faster and uniform coverage of the treatment area, with larger spots penetrating deeper. no overlap, no burns and no retouching missed areas.

Precision coverage is made even simpler with unique UV Skin Marking providing an easy grid matrix to follow.

Traditional round spot sizes result in inconsistent coverage affecting efficacy and safety.

Unique and unmatched

An advanced ergonomic handpiece integrates a plume evacuator and cooled air for added comfort at the same time

Built-in plume evacuator

An integrated plume evacuator and HEPA filter provide a smoke free environment and ensure the well-being of the treatment provider and the customer.

DCS (Dual Cooling System)

Combined Cryo-Touch and Cryo-Air.
The Cryo Tip is designed to deliver cold air exactly over the laser beam treatment area.

SPLENDOR X ensures a greater return on investment in a shorter time due to the longest lamp life on the market and a maintenance-free system supported by remote trouble-shooting

Self-Lamp-Replacement™

Replace the laser flash lamp yourself in just seconds, no need for a technician without any system downtime

Remote Service Connectivity

Advanced service software allows certified engineers to trouble shoot, calibrate and upgrade the system remotely increasing uptime.

Confidence in your clinical outcomes

Laser Hair Removal

Before

After

Courtesy of Lumenis Ltd.

Prof. Leonardo Marini, M.D.
Skin Doctors' Center
Trieste, Italy

"I am very impressed with the efficacy, speed and safety, of the SPLENDOR X on all skin types, for hair removal, photocoagulation of vascular lesions. It addresses dark skin types, as well as fine hairs, with unmatched results. The speed of treatment is unbelievable and patients are getting impressive long-term results in only four sessions. Since there are no consumables, the return on investment is rapid."

Your journey with SPLENDOR X has just begun.

We want your business to grow with SPLENDOR X. That's why we have put together a support package that begins with the first conversation and will stay with you as your business begins to see the benefits. We ensure that you have all the training you need and receive the most up to date clinical materials.

Our direct to consumer marketing activities support the brand, keeping Lumenis laser hair removal the treatment of choice when it comes to consumers around the world.

Lumenis Practice Locator

Thousands of patients search for treatment providers every month. Help them find your clinic by registering your practice on the Lumenis Practice Locator. We run campaigns through influencers, social media and viral videos to promote this directory.

Lumenis.com

Consumers have many questions about laser hair removal treatments. Our dedicated patient-facing website will give them the re-assurance and confidence they need to move forward with the treatments.

Team Training

We install the system and train your staff, so that we are able to assess skin types and conditions, creating the perfect treatment plan for each individual patient. Our expert clinical training means they will handle consultations and treatments with confidence.

Your Most Valuable Resource

Your dedicated representative is an email, text, or phone call away. We want you to feel part of the Lumenis family, so please feel free to contact us any time. We'll always do our best to get back to you within 24 hours.

Brand Your Clinic

As a Lumenis client you will have access to the Lumenis Physician Portal. Here, you can find materials such as brochures and posters. As well as gain access to a wealth of clinical and product information.

Best Practice Marketing

Your individual Lumenis representative will be able to share marketing plans which you can tailor to your own business. These range from 90 day benchmarks for success to loyalty programs and promotions.

Indications for use

Alexandrite & Nd:Yag - Hair removal, permanent hair reduction*, and the treatment for Pseudofolliculitis Barbae (PFB).

Treatment of vascular lesions, including angiomas, hemangiomas, telangiectasia, and other benign vascular lesions and leg veins.

Treatment of benign pigmented lesions.

Nd:Yag - Non-ablative photo rejuvenation, coagulation and hemostasis of soft tissue, wrinkles, scars, warts, onychomycosis / toe nail fungus tattoos

* Permanent hair reduction is defined as the long-term, stable reduction in the number of hairs re-growing when measured at 6, 9 and 12 months after the completion of a treatment regime. Fitzpatrick skin types I – VI, including tanned skin

Warnings and Risks

Treatment should not be attempted on patients with the following conditions in the treatment area: any active infections, inflammatory skin conditions, Dysplastic nevi, tattoos, active cold sores, open lacerations or abrasions, viral, fungal, or bacterial diseases or a history of post inflammatory hyperpigmentation, history of keloid scarring. The most common immediate responses of laser treatment for hair removal, lightening/darkening of pigment, vascular lesions, and wrinkles pigmented lesions are erythema, edema, perifollicular edema and perivascular edema, vascular bleaching, hyperpigmentation and hypopigmentation or textural changes of the treated areas. The complete list of contraindications and risks can be found in the SPLENDOR X user manual.

About Lumenis

Lumenis is a global leader in the field of minimally invasive clinical solutions for the surgical, ophthalmology and aesthetic markets, and is a world-renowned expert in developing and selling energy-based technologies, including laser, intense pulsed light (IPL) and radio frequency (RF). For over 50 years, Lumenis' ground-breaking products have redefined medical treatments and have set numerous technological and clinical gold standards
